

Prevention declaration

Spa treatments, Therme Wien

I hereby confirm that I, _____, have been informed that massages during pregnancy involve risks and may lead to complications despite appropriate and careful performance of the treatment. As a result, I confirm that I will only have a massage after the 12th week of pregnancy (implantation phase).

I also acknowledge that massages should not be performed in case of any of the following (among others):

- Premature labour
- Short cervix
- Pregnancy-related high blood pressure
- High-risk pregnancy status

If you are unsure, consult a doctor beforehand.

Exclusion of liability: If, despite the massage being performed by a trained professional, personal injury occurs due to the fact that the contraindications specified in the prevention declaration were ignored or the practitioner was not informed of them, the practitioner and business owner are exempt from any liability. The same applies in case of damages that may arise due to the fact that a reason for exclusion was not known at the time of the massage and the practitioner and business owner were unable to identify said reason.
